Oxygen Based Colon Cleaners

Oxy-Powder® is a scientifically formulated compound that uses the power of oxygen to safely aid the body in relieving irritation associated with constipation symptoms. A clean, toxin-free intestinal tract is the foundation for maintaining optimal health. Oxy-Powder's® safe, all-natural formula gradually releases cleansing oxygen into your digestive tract over an 18-hour period as it helps to liquefy and lift away mucous and sludge gently. When activated together, Oxy-Powder®'s unique combination of ozone-oxygenated Magnesium, Organic Germanium-132, and Citric Acid help clear out deep-seated waste built up inside your intestinal system. The result is an intestinal environment with less opportunity for the accumulation of impurities, toxins, and harmful bacteria.

Colosan™ is a scientifically formulated compound that uses oxygen to safely rid the body of compacted feces in the colon lining. A clean toxin-free intestinal tract is the foundation for maintaining optimal health. Colosan™ can be used for both periodic colon cleanses in addition to relief from temporary constipation symptoms. Contains 120 capsules which will support approximately 4-5 colon cleanses. Oxygen is the optimal way to cleanse the colon as digestion is known to be a process of oxidation. By introducing oxygen into the intestines and colon, one can assist the process of complete digestion as well as oxidizing undigested material by turning undigested material into CO₂, waste and water.

Liver and Gallbladder Cleansers

Super Phos 30™ by DEWS™ is a natural Liver and Gallbladder Cleanser. Super Phos 30™ works to cleanse the liver and gallbladder and helps to eliminate existing gallstones. Super Phos 30™ uses ortho-phosphoric acid to help remove calcium and lipids from arteries. It also works with malic acid found in apple juice (taken as a part of the cleansing process) to dissolve and soften existing gallstones in the gallbladder. Super Phos 30™ also utilizes Inositol which aids in the breakdown of fats and reduction of blood cholesterol, and Choline, an organic compound classified as an essential nutrient typically grouped within the Vitamin B complex. Ingredients: Purified Water, Orthophosphoric Acid (a food-grade mineral acid), Inositol, Choline Bitartrate.

Livatrex™ is a 100% All-Natural Liver and Gallbladder Cleanser developed by the Global Healing Center's founder Dr. Group. Its combination of nine natural ingredients is designed to support healthy liver and gallbladder function, and is intended to assist in detoxification of these essential organs. Each herb was carefully selected for its role in detoxifying the liver and gallbladder as well as supporting the overall cleansing process and each herb is organically cultivated. Livatrex aids in breaking down gallstones and kidney stones that can result from an overburdened liver. Ingredients: Organic Chicory Root, Organic Dandelion Leaf, Organic Dandelion Root, Organic Greater Celandine, Organic Milk Thistle Seed, Organic Peppermint Leaf, Organic Turmeric, Organic Yellow Dock Root, Wildcrafted Chanca Piedra (Grown in Organic Conditions).

Hepasan™ is a liver, kidney and gallbladder flush that combines the best of modern science and traditional American folk medicine. Hepasan starts with detoxification at the cellular level by boosting the activity of glutathione the antioxidant that plays an important role in energy production of ATP. This allows the liver to burn accumulated fat while eliminating toxins. Fat and toxins are the two enemies that cause the liver to clog and not function optimally. Hepasan increases microcirculation providing better flow through the fine capillaries of the liver. It thins the blood, bile and interstitial fluids that flow through the liver. Ingredients: Black Strap Molasses 95% sugar removed, Red Clover, Alpha Lipoic Acid, Potassium Citrate and Acetyl Cysteine.

Silver Fuzion™, developed by the Global Healing Center's founder Dr. Group, is a liquid colloidal silver supplement. GHC's unique process of using the finest quality water and silver available ensures a highly effective and absorbable ultimate micro-particle form of silver. Doctor Developed and Doctor Recommended. Silver Fuzion is a proven way to help optimize your health! A health enhancing formula of 99.999% pure silver combined with distilled magnetized Wellness Water®. The formula that works with your immune system to boost protection! Ingredients: Micro-Particle Silver Water. Other Ingredients: Triple distilled, ozonated, carbon filtered, energized, magnetized water and pure fine silver chelated to fulvic acid.

Silver has long been used to help fight germs, bacteria, and other unfriendly microorganisms. For thousands of years silver has been used in silverware, silver cups, and silver serving trays and in medicine. Early American settlers even put silver coins in milk to help keep it fresh without refrigeration. American physicians in the 1930's relied on silver as an antibiotic treatment. Today silver is used in bandages and in salves for burns, and to protect against infections. It is even used in a nitrate form, and put into newborn eyes to help prevent infections. 16 oz Bottle

O'Donnell Formulas ~ Pro-Biotic Supplements

Latero-Flora is a naturally occurring bacteria. It is believed to be the only strand of bacteria that is spore bearing and actually helps to regenerate other naturally occurring strands of bacteria included in many probiotics, thus limiting the need for additional supplements. It is one of the most enigmatic of the transient "friendly" microorganisms found in the human gastrointestinal tract. *Bacillus laterosporus* (B.O.D.™ strain) is a spore bearing bacteria. This enables the encased spore to survive the stomach acids. Thus, the full benefit of *Bacillus laterosporus* B.O.D.™ will bloom and flourish in the colon. As a result, this particular strand does not require refrigeration. Latero-Flora™ can help maintain a healthy colon and help populate the intestines with beneficial bacteria, thus enhancing the immune system, and in general help in the digestion and absorption of nutrients. Ingredients: *Bacillus Laterosporus* (BOD strain), Rice Flour. Size: 60 Vegetable Capsules

Ultimate Acidophilus. There is a considerable difference between the strains of *L. Acidophilus*. In fact, the very same strain grown under different conditions will show different properties. This is why DDS-1 (used in Ultimate Acidophilus) is more than the particular strain of the species, it is a product of specific conditions of the culture and the process. *L. Acidophilus* DDS-1 is produced by a unique process that includes growing it in a special medium. It is finally stabilized with a specially designed natural stabilizer. Ultimate Acidophilus alleviates diarrhea, constipation, allergic skin diseases; reduces cholesterol, produces L (+) Lactic acid.

Co-Q-10, (or Coenzyme Q10, Vitamin K2, Ubiquinone), is a vital nutrient necessary for proper cell function that's essential to life itself! As we age our body's natural production of this vitamin is reduced resulting in the need to supplement this fundamental nutrient. According to John T. A. Ely, Ph.D. and Cheryl A. Krone, Ph.D., "Ubiquinone (CoQ10) is one of the two most important essential nutrients (the other being ascorbic acid)." CoQ10 helps to escort nutrients through cell walls and convert them into energy, stabilize cell membranes, destroy free radicals, and acts as an antioxidant. CoQ10 has many benefits that are too long to list. Please visit our website for more detail! Ingredients: Vitamin E (dl Alpha Tocopherol Acetate), Cinnamon Lipid Extract, T.A.T. Metabolite™ (Tyramine), Cinchona Bark Extract, and Gum Benzoin Extract. Size: 90 Capsules

BHB is a natural energy supplement. BHB was originally developed for individuals experiencing problems maintaining the natural function of their adrenal glands and thyroid glands although its uses continue to expand to include use as an energy supplement, to regulate night sweats, to elevate arthritis, and more. BHB is known as the "Ultimate Anti-Aging Supplement". BHB contains l-threonine which helps to "defat" the liver. It is lipotropic, which means it acts to breakdown saturated fats (lipids) into unsaturated fats. Tyramine (T.A.T. MetaboliteTM) is the immediate precursor to the adrenal and thyroid hormones. Ingredients: a-amino B-hydroxy-methyl-butyrac acid (l-threonine**) 250 mg. potassium - elemental (as chloride) 50 mg. T.A.T. MetaboliteTM (Tyrosinal Adrenal Thyroid Metabolite) 50 mg.

Mullzyme is an herb from the snapdragon family. Nutritionally, it has been used to help soothe mucous membranes and acts as an expectorant (breaks down mucous) along the respiratory tract and digestive tract. Mullein (one of the main ingredients in Mullzyme) typically works better when combined with enzymes like pepsin (the main enzyme of gastric juices), bromelain from pineapples (which reduces inflammation and breaks down proteins), and pectin from citrus peel and apples. When combined with bromelain, pectin helps to digest carbohydrates, fats and proteins.

Me-Cofactors (otherwise known as SAM-e) provide the necessary "cofactors" or building blocks of SAM-e. Me-Cofactors (i) help the body maintain a normal homocystine / homocysteine level (ii) help the body to manufacture joint cartilage aiding in joint health and mobility, (iii) help to maintain normal neural cell membrane function, (iv) and aid with emotional well-being. Me-Cofactors provide both Vitamin B6 and B12. S-Adenosyl-Methionine or SAM-e e is a natural compound found in every living cell. It plays an important role in several biological reactions within the human body. The major results of these reactions are: 1) To manufacture joint cartilage and 2) To help maintain normal neural cell membrane function.

Vitamin Dee Three or D3. Vitamin D, while an essential nutrient, is one in which most are deficient. While Vitamin D can be sourced via food and sun exposure many need to supplement this vital nutrient. The major biologic function of vitamin D is to maintain normal blood levels of calcium and phosphorus. Vitamin D aids in the absorption of calcium, helping to form and maintain strong bones. It is used, alone or in combination with calcium, to increase bone mineral density and decrease fractures. Research also suggests that vitamin D may provide protection from osteoporosis, hypertension (high blood pressure), cancer, and several autoimmune diseases.

Cayenne Caps. Cayenne pepper, a member of the Capsicum family of vegetables, comes from red hot chili peppers that are not only good to eat but are great for your health. Taking it in powder form, however, is especially potent and powerful. Cayenne peppers are an excellent source of vitamin A, through its concentration of pro-vitamin A carotenoids including beta-carotene. Beta-carotene is not only a potent antioxidant in its own right, but can be converted in the body to vitamin A, a nutrient essential for the health of all epithelial tissues (the tissues that line all body cavities including the respiratory, gastrointestinal and reproductive tracts). Beta-carotene may therefore be helpful in reducing the symptoms of asthma, osteoarthritis, and rheumatoid arthritis. In addition, its antioxidant activity make it useful in preventing the free radical damage that can lead to atherosclerosis, colon cancer, and diabetic complications, like nerve damage and heart disease. Cayenne is also known to reduce inflammation, provide pain relief, improve cardiovascular function, clear congestion, boost immunity, prevent stomach ulcers, and promote weight loss.

Bile Salts are used to emulsify lipids in food passing through the intestine to enable fat digestion and absorption through the intestinal wall. Bile salts aid in the breakdown of saturated fats that the digestive system has not been able to convert into unsaturated fats. The body uses these unsaturated fats to manufacture essential vitamins and hormones. Many individuals without proper gallbladder function find it helpful to supplement with the best Bile Salts. Bile emulsifies fat soluble vitamins (A, D, K & E) which improves their absorption, removes excess cholesterol, helps keep the small intestines free from micro-organisms, helps make the stool soft by promoting the addition of water into the stool, and serves as a carrier of toxins. The liver filters the toxins and dumps them into the bile. Bile then carries toxins to the intestines where they are absorbed by dietary fiber and excreted.

Colosan™ is a scientifically formulated compound that uses the oxygen to safely rid the body of compacted feces in the colon lining. A clean toxin-free intestinal tract is the foundation for maintaining optimal health. Colosan™ can be used for both periodic colon cleanses in addition to relief from temporary constipation symptoms. Contains 120 capsules which will support approximately 4-5 colon cleanses. Oxygen is the optimal way to cleanse the colon as digestion is known to be a process of oxidation. By introducing oxygen into the intestines and colon, one can assist the process of complete digestion as well as oxidizing undigested material by turning undigested material into CO₂, waste and water. Available in Capsules or Powder Form.

Hepasan™ is a liver, kidney and gall bladder flush that combines the best of modern science and traditional American folk medicine. Hepasan starts with detoxification at the cellular level by boosting the activity of glutathione the antioxidant that plays an important role in energy production of ATP. In doing so it allows the liver to burn accumulated fat while eliminating toxins. Fat and toxins are the two enemies that cause the liver to clog and not function optimally. Hepasan increases microcirculation providing better flow through the fine capillaries of the liver. It thins the blood, bile and interstitial fluids that flow through this all important organ. OxyMax is an antimicrobial agent that combines colloidal silver and stabilized oxygen, two of nature's most powerful antibiotic agents. This extraordinary cold and flu remedy combines the powerful oxidizing action of stabilized oxygen with the natural antibiotic properties of colloidal silver. Silver is a powerful antibiotic used for thousands of years with no adverse side effects. In the early years of this country colonialists put a silver dollar in milk to keep it fresh at room temperature. Colloidal silver is made up of very fine particles of silver in suspension. Acting as a catalyst, colloidal silver disables the enzyme system of bacteria, fungi and viruses without harming the human body. Colloidal silver is so effective that in less than six minutes post contact bacteria are dead.

Felicitea offers a selection of hand-blended teas using organic, local and sustainable teas and herbs. We believe that even the things that are “good for you” should make you happy. Each tea is blended in small batches to ensure each cup delivers quality and happiness.

Why loose leaf tea?

Conventional tea bags are filled with tea “dust” – which is about as appealing, tasty and beneficial as it sounds. Felicitea’s loose teas use the whole leaf teas and large pieces of cut & sifted herbs resulting in the customer getting the full flavor – and benefit – of the teas and herbs.

1. For the best possible cup: Measure 1 teaspoon of leaves for each 6 oz of water into tea strainer. Use clean, filtered water brought to a boil. Allow to cool slightly (170F-190F) then pour directly over the leaves. Allow to steep for 2-4 minutes. (Start with the shortest steep time increasing as needed to determine your preference.)

2. For the best possible cup: Measure 1 teaspoon of leaves for each 6 oz of water into tea strainer. Use clean, filtered water brought to a boil. Pour directly over the leaves. Allow to steep for 4-7 minutes. (Start with the shortest steep time increasing as needed to determine your preference.)

Green, Herbal and Oolong teas are delicious on their own as well as sweetened. To make iced tea use 2 teaspoons of leaves for each 6 oz water.

Ada Mineral Cosmetics

Why Ada Cosmetics?

- Better Prices!
- Better Ingredients!
- Dr. Endorsements!
- Natural SPF!
- Won't Clog Pores!
- Won't Cause Acne!
- Anti-Inflammatory!
- Water Resistant!
- NIRC "Truth in Labeling" Pledge!
- Campaign for Safe Cosmetics!

Why Mineral Make-Up?

- **Purity!** Mineral cosmetics are loose powders containing crushed minerals that have been extracted from the Earth's surface. Many dermatologists report that because high quality mineral cosmetics eliminate the use of classic "irritants" such as fragrances, binders, synthetics, dyes, and preservatives it is considered "purer" and can be kinder and gentler to the skin. Additionally, it's not absorbed into the skin and won't clog pores, but actually adheres to the skin providing perfect coverage all day!
- **Natural SPF!** Mineral make-up is formulated with a high concentration of the natural minerals titanium dioxide and zinc oxide, which are two ingredients commonly used in sunscreens. These minerals offer a natural sun protection effectively blocking both UVA and UVB rays. Ada Cosmetics offer protection of up to SPF20.
- **Water Resistant!** Mineral make-up is water resistant and does not smear with perspiration making it the perfect choice active individuals. Great for athletes including swimmers, runners and bikers in addition to anyone who might get caught in the rain. Just pat dry with a towel!
- **Non-Comedogenic, Non-Acneogenic, Anti-inflammatory!** Mineral make-up is so gentle it's recommended by many Doctors! Two of the main ingredients in mineral make-up, titanium dioxide and zinc oxide, are known for their natural anti-inflammatory properties.

Why Ada Cosmetics?

- **Better Prices!** Ada Cosmetics provides its mineral cosmetics at the best price! As compared with the top brands you'll save 40% to 85%! See our comparison chart below!
- **Better Ingredients!** Ada Cosmetics prides itself on using only top quality ingredients! As such, Ada is a step above Bare Minerals and Sheer Cover as it excludes Bismuth Oxy-Chloride an ingredient known to irritate the skin causing itching, rashes, and cystic acne. See our comparison chart below!
- **Dr. Endorsements!** As a result of its high quality ingredients Ada has received multiple Dr. Endorsements supporting the safe, effective and therapeutic effects of their make-up products.
- **Pure and Natural!** Ada Cosmetics is a proud signer of both the NIRC's "Truth in Labeling" pledge and the Campaign for Safe Cosmetics Pledge. These pledges commit that Ada both uses natural ingredients and assures the use of no chemical ingredients known or thought to have major negative effects including links to cancer. Note that many major cosmetic companies have thus far refused to sign this pledge including Bare Minerals and Sheer Cover (as of 11/5/07).
